FULBRIGHT COMEXUS
BECAS FULBRIGHT-GARCÍA ROBLES

BINATIONAL BUSINESS AWARD

OPEN TO	DURACIÓN DE LA BECA	SPANISH REQUIRED
U.S. Citizens with a bachelor's or masters degree	10 months	Advanced

About the program

Unique among Fulbright programs worldwide, the **Binational Business Program** was created to promote mutual understanding between the business communities of Mexico and the United States. U.S. grantees spend ten months in Mexico City interning at a Mexican or multinational company while also taking MBA-level courses in international business at ITAM (Instituto Tecnológico Autónomo de México).

INTERNSHIP

- Work at a Mexican or multinational company for approximately 80% of grant time.
- Placements include companies, financial institutions, start-ups, and NGOs in Mexico City.
- COMEXUS places all grantees — do not contact companies directly.

COURSES

- MBA-level courses in international business at ITAM, Mexico City.
- Courses complement and contextualize the internship experience.
- A research or study project is not required but may be included as an additional activity.

Past placements: Angel Ventures, *Grupo Coppel*, *Tequila Casa Dragones*, ITAM EPIC Lab, Endeavor, FTI Consulting, *Educación para Compartir*, among others. Specific companies, sectors, or regions cannot be guaranteed.
